Spain, leader in mobility management

Spanish companies and administrations, such as the Traffic Department of the Spanish Home Office (*Dirección General de Tráfico, DGT*), are pioneer in the internalization and exportation of their technology related to mobility management.

In this context, the **1st International Congress on Mobility Management**, entitled “**The Standardization, key of success in Spain**” will be held in Madrid (Spain) from 11 to 13 December 2012, led by the Traffic Department of the Spanish Home Office (DGT), organized by the Spanish Road Association and promoted by the Municipality of Madrid. The program includes three technical visits

The **International Congress on Mobility Management** offers an extensive and complete program. In addition to the conferences, three technical visits of high interest will be organized: the Mobility Control Center of the Traffic Department in Madrid (DGT), the Control Center of *Calle 30* and the last one to the Center of Automated Complaints Processing (ESTRADA) in the city of *León*.

The technical program is coordinated by two important experts in this field: Enrique Belda from the Spanish Home Office (above) and Carlos Rubio from the Municipality of Madrid (below). [More information](#)

Special conditions for international delegates

With the aim of promoting the international participation, the experts and delegates coming from foreign countries benefit from a reduced registration fee of 450 euros + VAT. The same fee is established for members of the Spanish Road Association and members of CTN-199 Technical Committee. The full registration fee for other delegates is 600 euros + VAT. Additionally, the Organization will provide with travel grants of 1,000 euros maximum to ten delegates working in foreign Mobility Administrations. For the selection, the level of representation in their countries will be highly considered. If you are interested in asking for these travel grants, please fill in the following request and send it before 15 November. [Download request form](#)
