

Newsletter nº 3 – Wednesday, 31 October 2012

Ten countries have confirmed their participation in the Congress

From Middle East to South America, including Europe. The International Congress on Mobility Management (Madrid, 11 – 13 December 2012) has been promoted all over the world and, at this time, ten countries are interested in participating in this meeting: Argentina, Bolivia, Colombia, Ecuador, Hungary, Mexico, Peru, Portugal and Saudi Arabia.

All of them will bring their experiences in the forum, but especially, they will find in the Congress the latest technological solutions to adapt their management systems to their mobility needs in their country.

Mobility Control Center of the Traffic Department (DGT) in Madrid: The eye that sees everything

Dozens of screens, computers and experts receive every day in the Mobility Control Center of the Traffic Department (DGT) in Madrid all the information arriving from the cameras located in the roads of the region and from the data collection stations.

This Center works as the coordinator of six others that DGT has in the Spanish territory, so as it is one of the most appropriate to know how it operates every day related to mobility management.

Therefore, the organization of the International Congress on Mobility Management has included in the technical program a visit to this Center. It will be held the same date as the Opening, on Tuesday 11, after the working lunch.

During the visit that will last two hours, the attendees will see the works on mobility control, as well as the assistance and information to users.
