Jacobo Díaz Pineda, Director General of the Spanish Road Association

“The Spanish model on mobility management is consolidated”

The Director General of the Spanish Road Association (SRA), Jacobo Díaz Pineda, encourages the international delegates to participate in the Congress with the purpose of learning about the successful Spanish mobility management system.

The opening conference will be focused on the Spanish mobility model

Enrique Belda and Carlos Rubio, coordinators of the International Congress on Mobility Management and experts from the Spanish Home Office and the City Council of Madrid will give the opening conference of the event.

Following the technical sessions, divided into two parts, will start. Regarding the interurban area, subjects as driving offences management, data quality, information to the user, environmental monitoring, European harmonization and variable message signs standards will be discussed.

In the urban area, the following subjects will be analyzed: mobility systems integration (public transport, environment, emergency and safety), controllers and communications and technological models. Furthermore, access control, *red photo* and smart cities will be dealt.

Calle 30: a motorway in the city

Calle-30, the ring road that surrounds the Madrid downtown is 32.5 kilometers long and approximately a third was buried in 2007. These buried sections are managed from the Tunnels Control Center of *Calle 30*.

All the different safety subsystems are coordinated with 900 cameras located in the road: supplies of energy, ventilation, leakage, fire detection and lightning, and even the mobility management. The visit to this center will be one of the most important offered to the delegates. [More information.](#)

The Deputy Director for Technical Affairs of SRA promotes the congress in Ecuador

The Technical Deputy Director of the Spanish Road Association, Elena de la Peña, has travelled these dates to Ecuador to participate in the Road Safety Week that takes place in this county. The representative of the Association will promote the congress and encourage to the Ecuadorian experts to come to Spain.

The Gabonese road administration is interested in the congress

The Organization of the Congress has received a letter from the Director on Ground Transportation showing his interest in participating in the event with the Director of Road Transports, the Director of Intermodal Links and Statistics and the Director of Road Mobility. More than ten countries have already been registered.
